DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action or the MPEP.

Election/Restrictions

Applicant's election of Species 4, Figures 42A-42C in the reply filed on April 12, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 84, 85 and 93 are withdrawn from further consideration.

Claim Rejections - 35 USC § 112

Claim 90 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Technically, this claim further limits an element that is not positively recited, which is indefinite. To correct, claim 90 could be amended by deleting "medical device comprises" and inserting --connector is adapted to attach to --.

Claim Rejections - 35 USC § 102

Claims 80-83, 86-92, 94-99 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Harris et al., US 6,193,692. See especially figure 6, stylet 32, hub 38,

second assembly 22. Regarding the claimed extension, the examiner is taking the position that the entire portion shown highlighted below comprises the extension.

Applicant's extension is not well depicted and somewhat unclear, although the Harris extension is in accordance with that described in the claims. Accordingly, the interpretation is reasonable. Regarding claim 82, note figure 10, which explicitly discloses a blunt stylet. However, the examiner takes the position that it is reasonable to assume that the stylet in the other embodiments is also blunt from reading the entire patent. Note especially column 4, lines 39-44. Regarding claim 86, see connector 22 and threads 26. Regarding claims 92, 97, 98 and other claims which are directed to the function of the spring, see especially column 4, lines 32-52.
